Objective

High-energy, deeply connected campus leader dual-majoring in Physics and Mathematics with a proven track record of executing high-impact student initiatives. Recognized for infectious enthusiasm and entrepreneurial hustle, combining technical problem-solving with an extensive network in university organizations. Seeking to leverage a relentless drive and deep understanding of campus culture to amplify brand presence, drive grassroots engagement, and open new opportunities as a motivated student.

Summary of Qualifications

- **Deep Campus Connectivity:** Highly active within the university ecosystem through the Student Government Association (SGA) and volunteer organizations (VOICES). Recently recognized with the "Most Spirited Award," demonstrating the magnetic energy and approachability required to represent the voices of people and engage with others.
- **Entrepreneurial Execution:** Demonstrated self-starter initiative by independently developing and launching a comprehensive voting web application for the SGA elections, showcasing the ability to identify campus needs, build solutions from the ground up, and manage large-scale rollouts.
- **Elite Time Management & Drive:** Possess a relentless work ethic, successfully balancing the rigorous demands of a heavy STEM double major, 20+ hours a week of active community leadership, and dedicated endurance training for a full marathon.
- **Dynamic Communication & Engagement:** Exceptional interpersonal abilities honed through mentoring 20+ students and collaborating alongside educators. Proven ability to adapt quickly, command attention, and connect authentically with diverse crowds in fast-paced environments.
